Health Insurance for Retired Employees

Retirees may participate in the group health insurance program afforded to school board employees. Effective July 1, 2010 all retirees are subject to the following regulations:

- The school board will pay 50% of the approved monthly portion of the subscriber only tier, rounded to the closest whole dollar.
- To be eligible, an employee must be fifty (50) years of age at retirement, must have ten (10) years of continuous service with the Waynesboro Public Schools immediately prior to retirement, and must have been eligible for hospitalization insurance at the time of retirement. (In case of a job-related disability where either VRS or Social Security benefits are awarded, the service requirement will be waived.)
- Eligibility for this benefit will terminate after ten (10) years or at the time the retiree first becomes eligible for other health care insurance coverage, whichever comes first. Per Section 15.2-1517 of the Code of Virginia a retiree may remain on the group health insurance after the paid benefit expires if they have not become eligible for Medicare. At this time the retiree shall be responsible for paying 100% of the premium. The retiree shall not be able to remain on the group insurance once eligible for Medicare.
- The retired employee may include eligible dependents on this policy. Eligible dependents include those listed for coverage by the employee immediately prior to retirement. Only the deletion or termination of coverage will be permitted. Dependent coverage can continue under federal guidelines upon the death of the retired employee or upon the retired employee obtaining other health insurance coverage. A new application must be completed.
- Retirees eligible for the health insurance benefit, with a spouse still being an active Waynesboro School Board employee, may have their retiree health insurance benefit paid towards the active member's family or spouse coverage.
- The school board reserves the right to change the terms of the retirees' health insurance coverage at any time, including the right to terminate any or all coverage provided to retirees.

Note: Current retirees subject to this change in policy will not have premiums increased, due to this policy change, by more than \$100/month. Annual renewal increases will still be passed on to all retirees.
