

## **ENERGY-CONSERVING CONSTRUCTION**

Use of energy-conserving construction will be a high priority. The proposed project which contains the most efficient energy-saving plans within an acceptable budget will have priority. Energy-saving designs will be documented in the architectural evaluation and will comply with educational specifications as determined by the State Department of Education and approved by the school board.

A continuous study of energy problems and energy sources will be maintained by the administration for future planning in new construction.

Adopted: September 13, 1994
