

HOMEBOUND INSTRUCTION

The school board shall maintain a program of homebound instruction for any student who is unable to attend school because of a temporary physical or emotional disability.

Upon request of the student's parent or guardian, and provided such request is recommended by a physician, the board shall furnish a teacher to instruct the student at home. Any credits earned shall be considered a part of the student's regular school work and recorded as such on the cumulative record. Credit for the work shall be awarded when it is done under the supervision of a certified teacher, a person eligible to hold a Virginia certificate, or other appropriately licensed professional, employed by the local school board.

Applicants for homebound instruction are approved locally by the superintendent or his designee. Medical forms must be maintained on file.

During such period of instruction the student shall be carried on the school register as present.

Adopted: April 11, 1995
