

TRIPS

All overnight trips and trips requiring students to individually pay a fee greater than \$20.00 shall need approval of the school board. All field trips that require students to pay a fee should assure that all students eligible to attend the activity have the opportunity. The school may accept contributions for such activities or charge each student participating a reasonable fee not to exceed his/her pro rata share of the activity cost. A student whose parent or guardian is financially not able to pay the fee should not be refused participation in the event.
