

LACTATION SUPPORT

The building administrator, under the direction of the superintendent, shall designate a non-restroom location in each school as an area in which any mother who is employed by the Waynesboro School Board or enrolled as a student in the division may take breaks of reasonable length during the school day to express milk to feed her child until the child reaches the age of one. The area must be shielded from public view.

The mother needs to provide reasonable advance notice by informing the building administrator of the intent to take breaks for the purpose of expressing milk, so that proper scheduling arrangements can be made for that also give some consideration to the instructional day or program.
